ATTENTION RESIDENT

Property Name: _____ Apt #: _____

Date: _____

Please be aware that on (day) _____ the (date) _____ we will be

resurfacing in your home.

PLEASE READ AND FOLLOW ALL INSTRUCTIONS TO PERFORM THIS JOB ON THE MENTIONED DATE. THIS DOCUMENT MUST BE SIGNED.

The resident/occupant must: Remove all items away from the surface to be glazed. Items near of that surface must also be removed away to avoid damages. (Move items into an enclosed room where resurfacing is not being done.) If you have a leaky faucet this must be fixed prior to us coming, notify the office immediately so they have it fixed and rescheduled if needed.

Neither Super Carpet Cleaning or its subsidiaries nor the management of the apartment community will be held liable for overspray, dust or damage to all items not removed. The refinished item(s) cannot be touched nor used for 24 hours after completion to allow the coating to dry completely.

****IMPORTANT HEALTH HAZARD PRECAUTION-DISCLAIMER****
ABSOLUTELY NO ONE INCLUDING PETS CAN BE IN THE APARTMENT WHILE THE GLAZING/RESURFACING PROCESS IS BEING DONE!

Fumes will dissipate with 2 to 4 hours after the resurfacing is completed. If you should notice strong discomforting smell when you return, then you want to leave and return later or open doors and windows to air your home. The tolerance of each individual is different depending on many factors like weight, medical history, age, etc.

The following volatils liquids constitute the fume released: Xylene, Polyamide Resin, Propalene Olyool, Monernethy Either, Stoddard Solvent, Trimathylbonzene, n-Buryl Alcoholol. If you are allergic to any of the above, please notify the manager in writing and DO NOT sign this disclaimer. If you have any doubt, please consult your doctor. We care about your comfort and health.

I, _____ the resident in apt. # _____
Have read every word of this document and agree to the terms within. You may resurface the item(s) specified as scheduled above.

Signature of resident/responsible party: _____

Date: _____

AFTER CARE INSTRUCTIONS

- Please do not use this surface for 24 hours (at room temperature). Although the refinished surface can be put back into full use after this time, the surface will actually require up to 90 days to completely cure.
- If you use a bathmat, it must not have suction cups. Use of a suction cup mat will increase the chance of damage to the surface whenever it is removed. Use of this type of mat will void your Warranty.
- The surface should be cleaned regularly. Any cleaning product that is safe for acrylic surfaces, such as Formula 409, Fantastik or Scrubbing Bubbles, used once a week, will keep the surface in like-new condition for years to come. Daily shower sprays should not be used.
- Do not use any abrasive cleaners or scrubbing pads on your new finish. Abrasives will scratch the surface.
- Please note: All newly refinished surfaces will have some surface dust that will have settled into the new surface. Do not be alarmed; Because the surface is still within its long-term cure period, normal use and regular cleaning will remove all minor surface dust marks.
- Do not leave shampoo bottles, soaps, or soap containers on the surface. The chemicals in some products can cause the surface to discolor within a short time. Use of a shower caddy™ or shelving system is recommended.
- Do not drop sharp or heavy objects onto the surface, which may cause it to chip.
- Damage to the surface may occur through the improper use of acid-bearing compounds, such as drain openers or grout cleaners. All harmful chemicals must be kept away from the refinished surface. These chemicals include but are not limited to: cosmetics, hair dyes, and perfumes, which may stain or otherwise mark the surface.

Remember, If you treat your new surface with respect, clean it regularly, and follow the above guidelines, your fixture will remain shiny and bright and give you years of trouble-free service.
